PROFESSIONAL EXPERIENCE

ELEWA

Nairobi, KEN

Part-Time Product Development Consultant

Jul 2025 – Present

- Responsible for the AI orchestration and prompt engineering behind a crisis communication start-up in Belgium
- Responsible for communicating the progress to the client (i.e., the start-up founders)
- Technologies: Typescript, Genkit (Gemini, OpenAI, Anthropic), GraphQL, Nx, Angular
- Built an internal tool in Rust to test Genkit prompts at scale

ABEL

Mombasa, KEN

Technical Co-Founder

Feb 2025 – Jul 2025

- Accounting platform on WhatsApp for Kenyan SMEs and informal businesses
- Responsibilities:
 - Tech (WhatsApp Business API, FastAPI, AWS Lambda & Lightsail, Redis, Next.js, Gemini API, Prisma ORM)
 - Outbound & Inbound Sales

KING BAUDOUIN FOUNDATION

Brussels, BEL

Impact Analyst Intern

Jul 2024 – Aug 2024

- Updated the valuations of 13M EUR worth of equity investments
- Optimized the foundation’s fee structure of different types of funds based on their time intensity
- Built a website allowing colleagues to analyze batches of grant reports (with Flask, OpenAI API, Salesforce API, and Microsoft Graph API)
- Built a website where users enter a topic, and the website returns all related initiatives of the foundation (with Flask, and the OpenAI and Salesforce APIs)
- Deployed two Azure Function Apps: automatically uploading financial data of individual funds to a larger database and recording when the Foundation is referenced in parliament. The latter was then converted into a PowerBI dashboard with a custom search visual

UNITED NATIONS UNIVERSITY-CRIS

Bruges, BEL

Research Intern

Aug 2023

- Wrote a twelve-page paper titled “City Trade Networks from the Hanseatic League to Chinese Overseas SEZs: Consolidating a Research Agenda”
